Cozy up at the fireplace this Christmas with the EKTA Living Firekeeper. Its design aesthetic offers a sleek, informed modernisation of the traditional fireplace poker and bellows. It is ideal for starting or tending fires in woodburning stoves, open fireplaces and outdoor grills. Simply blow on the mouthpiece to revive your fire or use it as a poker to turn your coals. A magnetic rest can be attached to a wall to allow the Firekeeper to be stored in a minimalist way.

The Filigrantree is a sustainable Christmas tree in every respect. The filigrantree is exclusively available in sustainable oak. The wood comes from responsible forestry: as soon as a tree is felled, a new one is planted immediately.

Our sustainable Christmas tree lasts for many years and can also be used in other contexts. Depending on your taste, the filigrantree can be designed in unique ways and given completely different looks based on your preferences. Whether as an Advent calendar for the children or decorated with candles and ornaments - the filigree tree is guaranteed to arouse anticipation for cozy hours in your own four walls! When it's not in use, you can easily disassemble it and stow it away in the attic or in the farthest corner of your closet in the cotton bag that comes with it.

The concept "Christmas Sticks" is based on a "design it yourself" concept that allows you to add a personal touch to your Christmas decorations. At the same time, the aesthetic design is designed for durability and longevity - like all EKTA products.

The Christmas ornament collection includes the products "Christmas Sticks Candle", "Christmas Sticks" and "Christmas Sticks Ornaments".

The innovative yet classic tree candle holder "Christmas Sticks Candle" and the simple Christmas tree pendant (with hook) "Christmas Sticks" come with three to four different ornaments. With the "Christmas Sticks Candle", the ornaments act as a counterweight under the candle.

The design aesthetic of the Firekeeper offers a sleek, informed modernisation of the traditional fireplace poker and old bulky bellows. It is ideal for starting or tending fires in wood-burning stoves, open fireplaces and outdoor grills. A magnetic rest can be attached to a wall to allow the Firekeeper to be stored in a minimalist way.

Belt 4 Candles is a modern hide leather candle holder with a no-frills design. It offers space for four candles and is therefore perfect as an Advent candle holder. It can also be used year round with the glass vase that comes with it.

Bright Light is a modern interpretation of the classic chamber candleholder in Nordic simplicity, made from natural materials such as oak and leather.
